Katherine South Preschool's SunSmart / Sun protection / UV Protection Policy

This policy applies to all service events on and off-site.

Purpose

Our Katherine South Preschool SunSmart policy has been developed to ensure all children, employees and visitors attending our service are protected from UV.

This policy provides guidelines to:

- ensure all children, educators and staff are protected from over-exposure to UV radiation;
- ensure the outdoor environment provides shade for children, educators and staff;
- ensure children are encouraged and supported to develop independent sun protection skills;
- support duty of care and regulatory requirements; and
- support appropriate WH&S strategies to minimise UV risk and associated harms for educators, staff and visitors.

Background

The sun's ultraviolet (UV) radiation can't be seen or felt and is most intense during the middle of the day. Whatever the weather, it's important for people of all skin types to use sun protection whenever UV levels are three or higher.

Too much of the sun's UV can cause sunburn, skin and eye damage and skin cancer. Australia has one of the highest rates of skin cancer in the world, with two in three Australians developing some form of skin cancer before age 70. Infants and toddlers up to four years of age are particularly vulnerable to UV damage due to lower levels of melanin and a thinner stratum corneum (the outermost layer of skin). UV damage accumulated during childhood and adolescence is strongly associated with an increased risk of skin cancer later in life.

By teaching sensible sun protection habits from an early age and implementing sun protection measures, early childhood services can play a significant role in reducing skin cancer risk.

A combination of sun protection measures are considered when planning all outdoor activities such as excursions and water play.

1. Seek shade

- Management makes sure there is a sufficient number of shelters and trees providing shade in the outdoor area particularly in high-use areas.
- The availability of shade is considered when planning all outdoor activities.
- Children are encouraged to choose and use available areas of shade when outside.
- Play activities will be set up in the shade and moved throughout the day to take advantage of shade patterns.
- Children who do not have appropriate hats or outdoor clothing are asked to choose a shady play space or a suitable area protected from the sun.
- In consultation with the service's committee, shade provision is considered in future plans and upgrades.
- A shade assessment is conducted regularly to determine the current availability and quality of shade.

2. Slip on sun-protective clothing

- Children are required to wear loose-fitting clothing that covers as much skin as possible. Clothing made from cool, densely woven fabric is recommended. Families are asked to choose tops with elbow-length sleeves, higher necklines (or collars) and knee-length or longer style shorts, skirts and dresses for their child. If a child is wearing a singlet top or shoestring dress, they will be asked to choose a t-shirt/shirt to wear over this before going outdoors.

3. Slip on a hat

- All children and educators are required to wear hats that protect their face, neck and ears (legionnaire, broad-brimmed or bucket style). Peak caps and visors are not considered a suitable alternative.
- Children without a sun protective hat are provided with one where possible.

4. Slop on sunscreen

- SPF30 (or higher) broad-spectrum, water-resistant sunscreen is supplied by the service and/or families.
- Sunscreen is applied in accordance with the manufacturer's directions (which state to apply at least 20 minutes before going outdoors and reapply every two hours (or after sweating, towel drying or swimming). The current brand we use at Katherine South Preschool is Woolworths Everyday SPF50+.
- To help develop independent skills ready for school, children from three years of age are given opportunities to apply their own sunscreen under supervision of staff and are encouraged to do so.
- Sunscreen is stored in a supervised, cool place, out of the sun and the expiry date is monitored.
- Where children have allergies or sensitivities to sunscreen, parents are asked to provide an alternative sunscreen or children are encouraged to play in the shade.
- Cancer Council recommends a usage test before applying a new sunscreen.

5. Slide on sunglasses [if practical]

- Where practical, children are encouraged to wear close-fitting, wrap-around sunglasses that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible.

When used in its entirety, this policy ensures your service is following current evidence-based Cancer Council sun protection guidelines and recommendations. Any changes or adjustments to the policy may mean it no longer meets SunSmart guidelines. (August 2021)

Special note regarding infants

SunSmart practices consider the special needs of infants. All babies under 12 months are kept out of direct sun when UV levels are 3 or higher. The best sun protection can be achieved when a combination of physical sun protection measures such as shade, clothing and hats are used. For those small areas of exposed skin not protected by clothing or hats, apply sunscreen to infants six months and older. The widespread use of sunscreen on babies under 6 months old is not recommended.

Procedures

To assist with the implementation of this policy, educators and children are encouraged to access and display the daily local sun protection times

The sun protection times are a forecast from the Bureau of Meteorology for the time of day UV levels are forecast to reach three and above.

Sun protection times

UV levels vary across Australia and throughout the year. UV is typically three and above in the Northern Territory as listed below. There may be times UV levels are three and above outside these periods.

- NT
All year.
Wherever practicable, outdoor activities should take place before 10am and after 3pm, when UV levels are lower.

The sun protection measures listed are used for all outdoor activities during the **daily local sun protection times**.

Learning and skills

- Sun protection is incorporated into the learning and development program.
- The SunSmart policy is reinforced by educators and through children's activities and displays.
- Educators are encouraged to complete Cancer Council's free Generation SunSmart online learning modules.
- Children are encouraged to be involved in initiatives to promote and model sun protection measures at the service including taking leadership roles in managing sun protection e.g. accessing daily UV levels and sun protection times, hat reminders and management of sunscreen.

Engaging children, educators, staff and families

- Educators, staff and families are provided with information about sun protection through family newsletters, service handbook, noticeboards and the service's website.
- When enrolling their child, families are:
 - informed of the service's <insert policy name> policy;
 - asked to provide a suitable sun protective hat, covering clothing and sunscreen for their child;
 - required to give permission for educators to apply sunscreen to their child; and
 - encouraged to use SunSmart measures themselves when at the service.

WH&S

As part of WH&S UV risk controls and role-modelling, educators, staff and visitors:

- wear a suitable sun-protective hat, covering clothing and, if practical, sunglasses;
- apply sunscreen; and
- seek shade whenever possible.

Monitoring and review

- All staff, including management and educators, monitor and review the effectiveness of the Katherine South Preschool policy and revise the policy when required (at least once every year) by completing a policy review and membership renewal with CC Darwin NT / SunSmart at <https://www.cancer.org.au/cancer-information/causes-and-prevention/sun-safety/be-sunsmart/sunsmart-in-schools/nt>.
- Katherine South Preschool policy updates and requirements will be made available to educators, staff, families and visitors.

Please note: Certain health conditions and medications mean some people are more sensitive to UV radiation and need to use sun protection at all times regardless of the UV levels. Please make sure your policy includes the particular needs of these children and staff at your service. For further information visit [Cancer Council Australia's website](#).
